

Saad Safwat

Full Stack Web Developer (Laravel | Node.js | Angular | React)

Shebin El Kom, Al Minufiyah, Egypt | 01226659844 | saadsafwat909@gmail.com [LinkedIn](#) | [GitHub](#)

Summary:

Junior Full Stack Web Developer with hands-on training in PHP (Laravel) and Angular through ITI, plus practical internship experience building web applications using Node.js, React, and Next.js. Experienced in developing RESTful APIs, integrating front-end and back-end systems, working with MySQL, authentication systems, and modern development workflows. Passionate about building scalable applications and continuously improving software engineering skills

Courses & Certifications:

Information Technology Institute (ITI) – Tanta Branch | 2025

- Intensive Training Program – Full Stack Web Development (**PHP / Laravel & Angular**)
 - Built full-stack applications using Laravel, Angular, MySQL, RESTful APIs, authentication, and CRUD operations.
-

Skills:

Languages & Frontend: PHP, JavaScript, TypeScript, Angular, React.js, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS, jQuery

Backend & Database: Laravel, Node.js, Express.js, NestJS, Symfony, Lumen, MySQL, RESTful APIs

Tools & Workflow: Git, GitHub, GitLab, Docker, Jenkins, JIRA, Trello, Agile, Linux (Ubuntu), Windows

Education:

Bachelor of Science – Pure Mathematics & Computer Science

Menoufia University

Faculty of Science | 2018 – 2022

Internship Experience:

[PentaValue](#) – Full Stack Development Intern | 2025

Worked with Node.js, Express.js, NestJS, React.js, and Next.js in web application development.

Built and integrated RESTful APIs and frontend applications.

Collaborated on feature development, debugging, and modern development workflows using Git.

Projects:

Hireon – Job Listing Management Platform (Laravel & Blade)

Tech Stack: Laravel, Blade, PHP, MySQL

- Built a job listing and management platform using Laravel and Blade.
- Implemented CRUD operations, authentication, and role-based access.

GithubRepo: [Hireon Github Repository](#)

E-commerce Platform

Tech Stack: Laravel, Blade, MySQL, Authentication

Developed an e-commerce platform with product catalog, cart, and checkout system.
Implemented authentication, admin dashboard, and order management

GithubRepo: [Ecommerce Github Repository](#)

Blog Platform – Content Management System

Tech Stack: Laravel, Blade, MySQL

- Built a blog management system with posts, categories, and comments.
- Implemented CRUD operations, authentication, and admin dashboard.

GithubRepo: [Blog Platform Github Repository](#)

Rased (رأصد) – Power Station Issue Reporting Platform

Tech Stack: Next.js, React.js, NestJS / Nest.js, MongoDB

- Developed a multi-user issue reporting platform for electricity station incidents.
- Implemented media upload, location selection, role-based access, and report status tracking.

GithubRepo: [Rased Github Repository](#)

Technical Assignment – Full Stack Evaluation Platform

Tech Stack: Express.js, React.js, REST APIs, External APIs

- Developed a full-stack technical assignment application using Node.js and React.js.
- Implemented scalable APIs, external API integration, asynchronous data handling, and clean code architecture.

GithubRepo: [Technical Assignment GitHub Repository](#)

Multi-Model AI Chat Platform

Tech Stack: Node.js, React.js, Authentication (Google OAuth), REST APIs, AI APIs (GPT, Gemini, Grok)

- Built a full-stack AI chat platform supporting multiple AI providers (GPT, Gemini, Grok).
- Implemented Google authentication, chat history, and multi-conversation management with clean scalable architecture.

GithubRepo: [Multi-Model AI Chat GitHub Repository](#)

Ra7al – Student Housing & Real Estate Platform

Tech Stack: Laravel, Angular, MySQL, REST APIs, Authentication

- Developed a full-stack platform for student housing and real estate management.
- Enabled users to browse, search, and book accommodations with real-time availability.
- Implemented authentication, role-based access, and booking management.
- Integrated RESTful APIs and optimized database queries for efficient data handling.
